

# Case Study: SkillGigs, Inc

SkillGigs is a talent marketplace connected skilled healthcare and technology professionals with employers.

## Project Overview

The SkillGigs e-commerce talent marketplace also provides information about the talent that is a good match for your open jobs, including an in-depth analysis of their skills and experience using SkillGigs' patented 3D Resume technology. This information can help the employer and the talent find the best match for themselves without needing a recruiter.

## Project Goal

Our goal is to deliver a comprehensive solution that not only meets the technical specifications outlined but also offers additional value through user-friendly interfaces, customizable features, and seamless integration. We made easy-to-use platform and a marketplace where those looking to get hired for contract or permanent.

## Challenge

Texas A&M University seeks a robust solution to streamline course management and administration, addressing the challenges of managing extensive course catalogs across multiple campuses and sites, conducting fair placement lotteries, and efficiently handling evaluations. The university aims to enhance the user experience for a diverse user base, including students, staff, faculty, and residents, while ensuring seamless integration with existing systems such as Progress IQ, Canvas, and Banner.

## Problem Statement

Job seekers struggle to find suitable employment opportunities that match their skills and experience. The web ineffective search functionality, limited networking features, and absence of personalized recommendation lead to user frustration, wasted time, and missed career prospects.

## Solution

This platform aims to simplify the process of finding the perfect job by reducing the time required for job applications and introducing new beneficial features. It strives to offer a seamless user interface for smooth navigation and interaction. Mainly easy to finding job or freelance works.

## Challenging and Limitation

- Confusing Application Process
- Having a Limited Professional Network
- No Feedback

## Competitor Analysis

Based on reviewer data you can see how SkillGigs stacks up to the competition and find the best product for your business.

-  Ceipal ATS is a fully scalable, fully integrated Applicant Tracking System (ATS) that helps to quickly identify vacancies.
